Unlock GETS Client / Reset Password:

On entering 3 times wrong password, GETS client will be locked. In this case, client needs to be unlocked from ADMIN terminal from User -> Set Client Password dialog. To unlock, admin needs to enter the respective User ID and modify. To reset password, admin has to select the user id, enter the new password and modify.

The 'Set Client Password' dialog box contains the following fields and controls:

- User ID:** A dropdown menu with 'TEST1' selected.
- Options:** Two radio buttons. 'Unlock Client' is unselected, and 'Set New Password' is selected.
- Password:** A text input field.
- Confirm Password:** A text input field.
- Buttons:** 'Modify' and 'Cancel' buttons at the bottom.

Dealer Client Mapper

Admin can map the clients to dealers from this dialog.

The 'Dealer InvestorClient Mapper' dialog box features the following elements:

- Group ID:** A dropdown menu with 'HO' selected.
- Dealer ID:** A dropdown menu with 'TEST1' selected.
- Buttons:** 'Save' and 'Cancel' buttons at the top right.
- Available Investors:** A table with columns 'Investor I' and 'Investor Client Nan'. It lists AP38, AP39, and AP40.
- Added Investors:** A table with columns 'Investor I' and 'Investor Client Nan'. It lists AP37.
- Mapping Controls:** 'Add >', '< Remove', 'Add All >>', and '<< Remove All' buttons between the two tables.
- Status Bar:** Displays 'G.E.T.S Dealer Investor Client Mapper' and 'Dealer: TEST1'.

II. Surveillance Limits

Admin can set the surveillance limits at User / Client level from Surveillance -> Surveillance Limits dialog. He can set below limits.

Maximum Limit Allowed	
☐ All	
☒ Buy Qty	2,50,000
☒ Buy Value	2,50,00,000.00
☒ Sell Qty	2,50,000
☒ Sell Value	2,50,00,000.00
☐ Net Qty	<No Check>
☐ Net Value	<No Check>
☐ Eq Buy Value	<No Check>
☐ Eq Sell Value	<No Check>
☐ Eq Net Value	<No Check>
☐ Exposure With Premium	
☒ Single Order Qty	15,000
☒ Single Order Value	51,00,000.00
☒ Price % Change	1.00
☒ MtoM Limit	25,000.00
☐ Margin Limit	<No Check>
☐ I.V Limit	<No Check>

MaxBuyQty – Maximum Overall Buy Quantity

MaxBuyValue - Maximum Overall Buy Value

MaxSellQty - Maximum Overall Sell Quantity

MaxSellValue - Maximum Overall Sell Value

MaxNetQty - Maximum Overall Net Quantity

MaxNetValue - Maximum Overall Net Value

MaxOrderQty – Maximum Order Quantity for Single Order

MaxLTP%Change – Maximum LTP Percentage Change Check While Order Submission

MaxMtoMLimit – Maximum Mark to Market Limit

MaxOrderValue – Maximum Order Value for Single Order

III. Trade and Position Monitoring

Admin can monitor the online intraday position taken by the users / clients. All the trades that happen at the GETS client level will also get updated at the ADMIN level.

Admin can also apply filters and monitor the positions at market segment / symbol / user / client level. Admin can also view the live MToM across users / clients or at particular user / client.

Admin is not allowed to place any orders from his terminal. But he can cancel the pending orders of other users from pending order book.

IV. Arbitrage Surveillance

Arbitrage Surveillance is for setting the limits for automated arbitrage modules.

Admin has to set the arbitrage surveillance for the users on daily basis. If the settings are not done then rule addition in automated arbitrage modules is not allowed at client end saying “*There is no arbitrage surveillance for the user <USERID>*”.

Admin can set the arbitrage setting for selected user / all users. If he wants to set for all users, he needs to tick the check box aside All Users label.

Admin can set the arbitrage setting for selected arbitrage type / all types. If he wants to set for all types, he needs to tick the check box aside All Types label. *At present this applies for Cash to Future quote and Future to Future quote models only.*

Max Number of Rules (Maximum no. of arbitrage rules per arbitrage type) - *40 rules max*

Max Number of Order Lots per rule - *9999 lots max*

Max Number of Total Lots per rule (Overall limit) – *9999 lots max*

Max Threshold Qty Allowed in % (Max Th Qty available in depth) – *999 max*

If the admin wishes to modify, he can select the respective arbitrage setting from grid, update the data and modify the settings. Any particular setting can also be deleted, upon which the respective user cannot able to add any new rule in the arbitrage type.

Upon execution of trades, the total quantity will get reduced by the traded quantity.

Admin can click on the Setting button and save the selected values as default values.

User ID	Arbitrage Type	Rule Lim	Order Lo	Total Lot	Threshold
TEST4	GETS ROLL OVER	20	1	100	100
TEST4	GETS COC	20	1	100	100
TEST4	GETS QUOTE ROLL	20	1	100	100
TEST4	GETS QUOTE COC	20	1	100	100
TEST4	GETS IV ORDER EN	20	1	100	100

V. Banned Scrip Setting

Admin can block trading in automated modules in particular scrip from banned scrip setting dialog. This can be accessed from Surveillance -> Banned Scrip Setting.

Admin can set the banned scrip setting for selected user / all users. If he wants to set for all users, he needs to tick the check box aside All Users label. He has to select the banned scrip, market segment (E for EQUITY, F for FUTURE and O for OPTION) and Expiry.

If the admin wishes to delete, he can select the respective setting from grid and delete the setting.

UserID	Product	Symbol	Expiry	MktType
TEST1	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST1	GETS QUOTE COC	BEL	----	E
TEST2	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST2	GETS QUOTE COC	BEL	----	E
TEST3	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST3	GETS QUOTE COC	BEL	----	E
TEST4	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST4	GETS QUOTE COC	BEL	----	E
TEST5	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST5	GETS QUOTE COC	BEL	----	E
TEST8	GETS QUOTE COC	BAJAJHIND	24SEP2009	F
TEST8	GETS QUOTE COC	BEL	----	E

VI. Expense Setting

Admin can define the expense settings, which helps him to track the expenses on each trade received across users / at particular user. The expense calculated will be shown under expense column in net position dialog.

Various parameters those need to be filled in expense settings are explained below.

Exchange Type – Exchange Selection

Market Segment – EQUITY / FUTURE / OPTION

Expense Type – Brokerage/Service Tax/Transaction Charges/STT/Stamp Duty/SEBI Tax

Trade Type – Turnover / Square-off / Non Square-off

Expense on – Buy / Sell / Both

Charges Type – Changes on selection of Market Segment and Trade Type

Expense Rate – Input the expense rate for the selected rule

Base Rate – Base rate on which expense rate is calculated

The Expense Settings dialog box contains the following fields and controls:

- Date:** Start Date* (9/15/2009)
- Basis:** ☒ Daily ☐ Expiry
- Types:**
 - Exchange Type*: NSE
 - Expense Type*: Brokerage Tax
 - Expense On: BOTH
 - Mkt Seg*: EQUITY
 - Trade Type*: NON SQUARE OFF
- Charges Type:** ☒ Delivery ☐ Non Delivery
- Rates:**
 - Expense Rate: 1700.00
 - Base Rate: 10000000.00
- Buttons:** Add New, Modify, Delete, Save File, Upload File, Apply
- Table:**

Start Date	Exchange	Expense Typ	Market Segn	Expense On	Expense Rat	Base Rate	Basis
15-Sep-2009	NSE	Brokerage T.	OPTION	BOTH	1700.00	10000000.00	
15-Sep-2009	NSE	Brokerage T.	FUTURE	BOTH	1500.00	10000000.00	
15-Sep-2009	NSE	Stamp Duty	EQUITY	SELL	180.00	10000000.00	
15-Sep-2009	NSE	Brokerage T.	EQUITY	BOTH	1700.00	10000000.00	
15-Sep-2009	NSE	Brokerage T.	EQUITY	BUY	2500.00	10000000.00
