For Admin

Single Order Qty : Maximum Single order qty for a particular order.

Single Order Value : Maximum Single order Value for a particular order(In Lacs).

Buy Qty : Maximum Overall Buy Quantity for all users.

Buy Value : Maximum Overall Buy Value(In Lacs) for all users.

Sell Qty : Maximum Overall Sell Quantity for all users.

Sell Value : Maximum Overall Sell Value(In Lacs) for all users.

Net Qty : Maximum Overall Net Quantity for all users.

Net Value : Maximum Overall Net Value(In Lacs) for all users.

MtoM Limit : Maximum Mark to Market Limit for all users.

Price % Change : Maximum LTP Percentage Change Check While Order Submission.

Example : LTP Rs 100 then surveillance check for Buy order will be Rs 105 & for Sell Rs. 95.

(Price % Change Surveillance will be only consider for loss side)

Eq Buy Value : Maximum Equity Buy Value(In Lacs) for all users.

Eq Sell Value : Maximum Equity Sell Value(In Lacs) for all users.

Eq Net Value : Maximum Equity Net Value(In Lacs) for all users.

For Admin there are additional two surveillance mention, which use to all the clients.

1) Market Order Limit : 0.10% for LTP

(Market Order Limit will be generate for loss side)

From GMX 2.0.4.6.2505121150 version market order won't generate on (0.00) price it will generate on LTP %.

Ex. LTP is 5000 then order will generate for BUY ($5000 + .10\% = 5005$)

LTP is 5000 then order will generate for SELL ($5000 - .10\% = 4995$)

2) Price Protection :

Time = Per second

INDEX = Index symbol (Nifty,Banknifty)

EQ/STK/COM = Equity / Stock(Future stock) / Commodity

OPTION = Option symbol.

Example :

If the LTP for INDEX (10% surveillance for Index)

9:15:00 Nifty 4800

then for next 60 seconds price range will be (4320 to 5280), order couldn't be generate on below the 4320 price and above the 5280 price.

If the LTP change after 60 seconds,

9:16:00 Nifty 4850

then for next 60 seconds price range will be (4365 to 5335), order couldn't be generate on below the 4365 price and above the 5335 price.

Same Surveillance check for EQ/STK/COM & OPTION which % mention in the Price Protection.
