				d) All	5. If All option is selected then All Market Segment trades backup should create in respective market segment folder.				
5	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 4. Pro/Cli Combo Box	Combo box includes:	1. If All option is selected then both Pro and Cli trades should display.				
				a) All	2. If Pro option is selected then only Pro trades should display.				
				b) pro	3. If Cli option is selected then only Cli trades should display.				
				c) Cli					
6	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button-	1. Do trades in all segments.	1. Only Trade backup should create of all segment's in respective folder				
				2. Select Trade checkbox.					
7	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button-	1. Place orders in all segments.	1. Only Orders backup should create of all segment's in respective folder.				
				2. Select Order checkbox.					
8	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- Both Trade and Order Checkbox	1. Do trades and place orders in all segment.	1. Both orders and trades backup should create of all segment in respective segment folder.				
				2. Select both Trade and Order checkbox.					
9	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 7. OK Button	1. Select any option and press or enter OK button.	1. Backup should create as per the selected options format.				
10	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 8. Cancel Button	1. Select any option and press Cancel button.	1. Online Backup window should get close.				
11	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 9. NSE File Type Format-	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Neat format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Neat format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
					4. Paticipant Id should display in Participant Id Column for Cli trades which has Participant Id.				
12	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 9. NSE File Type Format- Other	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Other format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Other format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
					4. Participant Id should display in Participant Id Column for Cli trades which has Participant Id.				
13	NSE	Online Backup(Alt+F7)	(Alt+F7) Window Fields and Button- 9. NSE File Type Format- Exchange	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Exchange format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Exchange format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
					4. Participant Id should display in Participant Id Column for Cli trades which has Participant Id.				
14	NSE	Online Backup(Alt+F7)	NSE-Equity-With INST(Institutional ID)	1. Select the checkbox of Send INST As NSE EQ Participant ID from Tools->Client Settings->General.	1. INST should display in Participant Id column for NSE Equity trades.				
				2. Now trades in NSE Equity with Cli which has participant id.					
15	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 1	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 1.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 1.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
16	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 2	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 2.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 2.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
17	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 3	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 3.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 3.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
18	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 4	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 4.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 4.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
19	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 5	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 5.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 5	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
				4. BSE Format 5 is same as BSE Format 1.					
20	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 6	1. Do trades in BSE EQ with Pro.	1. BSE Format 6 is blank.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 6.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
21	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 7	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected selected BSE Format 7.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 7.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
22	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 1	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 1.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 1.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
23	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 2	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 2.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 2.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
24	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 3	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 3.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 3.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
25	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 4	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 4.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 4.					
26	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 5	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 5.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 5.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
27	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 6	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 6.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 6.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
28	BSE	Online Backup(Alt+F7)	BSE File Type Format- Format 7	1. Do trades in BSE FO with Pro.	1. BSE Format 7 is blank.				
				2. Also do trades by Cli code without Participant Id.					
				3. Take backup by selecting Format 7.					
29	NSE	Online Backup(F9)	NSE File Type Format- Neat	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Neat format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Neat format and Press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
					4. Participant Id should display in Participant Id Column for Cli trades which has Participant Id.				
30	NSE	Online Backup(F9)	NSE File Type Format- Other	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Other format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Other format and Press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
					4. Paticipant Id should display in Participant Id Column for Cli trades which has Participant Id.				
31	NSE	Online Backup(F9)	NSE File Type Format- Exchange	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSE Exchange format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Exchange format and Press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
					4. Paticipant Id should display in Participant Id Column for Cli trades which has Participant Id.				
32	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 1	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 1.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 1 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
33	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 2	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 2.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 2 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
34	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 3	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 3.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 3 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
35	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 4	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 4.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 4 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
36	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 5	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 5.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 5 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
				4. BSE Format 5 is same as BSE Format 1.					
37	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 6	1. Do trades in BSE EQ with Pro.	1. BSE Format EQ- 6 is blank.				
				2. Also do trades by Cli code without Participant Id.					
				3. Take backup by selecting Format 6 and press F9.					
38	BSE	Online Backup(F9)	BSE File Type Eq Format- Format 7	1. Do trades in BSE EQ with Pro.	1. Backup should create as per selected BSE Format 5.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 7 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
39	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 1	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 1.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 1 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
40	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 2	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 2.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 2 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
41	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 3	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 3.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 3 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
42	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 4	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 4.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 4 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
43	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 5	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 5.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 5 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
44	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 6	1. Do trades in BSE FO with Pro.	1. Backup should create as per selected BSE Format 6.				
				2. Also do trades by Cli code without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Format 6 and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
45	BSE	Online Backup(F9)	BSE File Type Fo Format- Format 7	1. Do trades in BSE FO with Pro.	1. BSE-FO- Format- 7 is blank.				
				2. Also do trades by Cli code without Participant Id.					
				3. Take backup by selecting Format 6 and press F9.					
46	NSE Currency	Online Backup(Alt+F7)	NSECurrency File Type Format- Neat	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Neat format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Neat format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
47	NSE Currency	Online Backup(Alt+F7)	NSECurrency File Type Format- Other	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Other format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Other format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
48	NSE Currency	Online Backup(Alt+F7)	NSECurrency File Type Format-Exchange	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Exchange format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Exchange format.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant				
49	NSE Currency	Online Backup(F9)	NSECurrency File Type Format- Neat	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Neat format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Neat format and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
50	NSE Currency	Online Backup(F9)	NSECurrency File Type Format- Other	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Other format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Other format and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant Id.				
51	NSE Currency	Online Backup(F9)	NSECurrency File Type Format- Exchange	1. Do trades in all segments with both pro/cli code.	1. Backup should create as per the NSECurrency Exchange format of respective segment's.				
				2. Also do trades by Cli code with/ without Participant Id.	2. Member Id should display in Participant Id Column for Pro trades.				
				3. Take backup by selecting Exchange format and press F9.	3. Member Id should display in Participant Id Column for Cli trades which has not Participant
